## CONSTRUCTION

Cypress is a naturally decay-resistant wood with high paint retention characteristics and is harvested from the coastal plain forests of the southeastern United States. Cypress has a fantastic resistance to moisture and because of this it is used as a main material for many outdoor features. One of the most common uses for cypress is outdoor furniture.

- **Classic Style: Maximum Durability & Comfort**
  - Naturally decay & moisture resistant wood
  - High paint retention characteristics.
  - Constructed with all Stainless Steel fasteners.
  - Weather-resistant glue keeps all the pre- assembled joints in place.

- **Painted, Weathered and Aged Finishes**
  - Available in a wide variety of solid, weathered, or aged finishes.
- **IN ADDITION: Sherwin-Williams® Paint Colors**
  - 900+ Sherwin-Williams® Paint Colors

## CARE & MAINTENANCE

Maintenance depends on the degree of exposure to the elements, such as sunlight, moisture, and impurities from the environment. Finish and routine maintenance will protect furniture from elements far beyond a normal furniture finish life.

- **Protecting**
  - Inspect each season
  - Requires periodic maintenance
  - Natural wood movement may require occasional tightening of bolts and screws
- **Cleaning**
  - Frames: Wipe with soft cloth & mild soap and water. Wipe again with clean water, rinse and air dry,
  - Fabrics: If your furniture has a seat pad, clean acrylic fabric with mild soap and warm water regularly, rinse and air dry,
- **Nicks, Scraps or Hairline Cracks**
  - Touch up immediately with WeatherMaster touch up products available through your WeatherMaster retailer.
